Is this ok?

Approving California Impaired Waters List: We will approve California's CWA 303(d) list of impaired waters, submitted by the State Water Resources Control Board, and recommend their next list consider temperature impairments for the San Francisco Bay Delta and San Joaquin River. We are providing supporting documentation with our assessment of continuous temperature data from California's Department of Water Resources and Fish and Wildlife Service. (Fleming, x23462)

Sorry, go side-tracked.

Approval of California Impaired Waters List – EPA will be approving California’s 303(d) list of impaired waters as submitted by the State Water Board. However, we are recommending the State Water Board consider adding temperature impairments for SF Bay Delta and San Joaquin in the next list. EPA is providing supporting documentation with our assessment of continuous temperature data from CA Dept. of Water Resources and CA Fish and Wildlife Service. (Fleming, 2-3462)
